The Ballot is Stronger than the Bullet.

The ballot is stronger than the bullet for the nation to prosper. In a democracy it is important to cast vote. Through voting, a leader or politician can be accountable to a its people. For example if a politician fulfill his vows during his tenure in government. People will cast vote for him in next elections otherwise if he donot fulfill his vows that he did to his people. He would be disrespected and abused in public or in different social media platforms.

Ballot exercise freedom of people in a country. It helps them to choose their representatives. Voting strengthen the pillars of democracy. Bullet on the other hand, promotes autocracy and violates the human fundamental right of voting. Thus, all these points shows that Ballot is stronger than the bullet.
