NEGATIVE EFFECTS OF SOCIAL MEDIA ON YOUTH (PROCRASTINATION)

| | |
|----------------------------|--|
| <u>TOPIC SENTENCE</u> | Among various negative effects of social media, one is for sure the procrastination |
| <u>REASONING SENTENCE</u> | When someone wants to avoid dealing with a boring, frustrating or unpleasant task, he turns to social media instead |
| <u>SUPPORTING POINT</u> | one of the most exacerbated issues of all times is weak academic performance which is much more prevalent among social media procrastinators |
| <u>EXAMPLE</u> | According to a survey of study habits of 1500 US undergraduates, published in THE HUNTINGTON NEWS, 64 percent admitted to having lost their train of thought after responding to social media alerts during their study. |
| <u>CONCLUDING SENTENCE</u> | Hence, procrastinating on social media leads to a number of day by day arising problems including worse emotional well-being, low self-esteem, poor financial status and lack of proper sleep. |
