

## International Politics

The international politics is becoming to one of the dangerous period, the consequences would be destructive and dire. The Russian aggression has put the world on the brink of destruction. The aggression resulted into verbal attacks between the world leading economies. The international community must halt the destruction by involving into talks between the super powers. As the war is going the world financial condition is becoming feeble too. Serious steps are the dire need of the hour to overcome tension between the two countries. Therefore, the participation of international community will bring down the differences and will promote peace and stability in the world. US-Sino rivalry should also be considered with the intention to save the world from destruction. However, the inactive role of international community will pour fuel on the fire. The world would be not a safe place for living if the silence of the international community remain the same as it is prevailing currently.

## "The International Conflict"

The international conflict means when states are involved in aggression directly or indirectly. Tranquility must be prevailed to halt the aggression. Therefore, such steps are the dire need of the hour to bring down the skirmishes of front line battles among the states. After the introduction of the concept of globalization, which means that the world is the collective asset of each state and responsibility lies on each state to overcome the war like situation anywhere in the globe. The Israeli Airstrike must be condemned by the international community and heavy penalty must be imposed for exemplary punishment. Such airstrikes are pouring fuel on the fire. In addition to U.S the Russian must also ~~revive~~ review the aggression policies, which are imposing massive destruction on the socio-economic condition of the globe. The Ukraine ~~was~~ war has made the situation worst. However, the actions should be taken to tackle the situation before mass destruction of the world.
