

~~If women are not protected socially, can legal actions protect them?~~

### Outline

#### Introduction:

Thesis statement: Protection of a woman in male centric society has always been an issue. Even after taking legal actions, there are still loopholes in finding the proper measures to protect women's dignity.

Council Para. How women can be protected socially and what legal actions should be taken.

Thesis. Society is responsible for taking actions to protect women.

- a: Role of society in shaping mindsets of people.
- b: Women should be given equal supremacy and value. (victim blaming)
- c: Awareness among people to be united <sup>against</sup> ~~among~~ unjust & wrongdoings irrespective of gender.
- d: Change <sup>responsibility</sup> comes from home {every individual should take initiative to raise voice ~~against~~ ~~not~~ for protecting an integral member of its society}
- e: Socially ill people cannot be cured by taking any legal actions.

Anti-thesis: ~~Not every person is responsible~~  
legal actions are a deterrence in crimes.

- a- ~~Society~~ Government is as much responsible as society.
- b- Equal rights and value can only be given by strengthening legal laws and actions

~~c- If people are not known about their~~

~~basic rights, how~~

c- Awareness can only waste time and not all people get these processes serious.

d- Certain rules and laws are even implemented at home to give people their rights of living.

e- legal actions are immediate cure for any society.

Conclusion.
