Ass # 18 Impact of weathers on Humans

1 Northern Europe showed the advantageous effects of cold. Cold weather proved to be an obstacle on the way of different human activities and gaining energy. While all the other weathers have different impact on human everyday life. In extreme hot weathers man has to build houses, uses warm clothes and needs lot of healthy food. In tropical region life is much more different, because there is no need of fire, warm clothes, plenty of healthy food one can spend the day easily under the shade of tree. In same way one can interpret the human nature in different weathers. Hot weathers makes life easy for human as compared to the cold that is difficult to survive.

Education has great importance in Islam because Islam is the religion of knowledge and wisdom. The religious and worldly life of individual cannot be constructed with different aspects from Islamic point of view. Likewise politics cannot be different from Deen. Like wise education is related to Deen. At the time of creation God has (always) gifted man with knowledge of objects. On the basis of this Hazrat Adam (A.S) got supremacy over angels and people became Ashraf-ul-Makhloqat. The first revelation on Hazrat Muhammad (S.A.W) revealed about the importance and meaning of education. "Read in the name of Allah who created you with blood. Read, your God is gracious; who taught as with pen."
