Pg No.

There are a few number of School regarding the question of liberty in education. There are those who want childrens complete freedom, a part of them other one who prefer under the authority. While on the other hand, ones who say despite having freedom they should always be good and that does not seem an effective idea. Owing to all of these are not adults. Moreover people who declare education as an important one does not agree with ~~because~~ of their individuality thinking. In Community education demands cooperation and for people there is a need of education. Adding to this there is also imperative to check on merit because more freedom for parents men so, role of education should be positive along with morality which children donot possess.
