

Economic turn down due to Covid-19

during the ~~same~~ pandemic.

World has seen one of the worst economic turn down due to covid-19 pandemic. Many people lost jobs world wide, ~~but~~ Even ~~the~~ global economic leaders like US also could not avoid the curse of covid-19 pandemic. Many were jobless in the United States of America. According to the World Economic Forum, United States of America has seen worst unemployment rate since after the Great Depression. 25% unemployment rate was in 1930s great depression and in 2020 pandemic it was up to 13%. People had faced many challenges due to low employment rate. Everything is associated with the employment. Hence, it shows that world powers

~~were~~ also faced by the
economic turndown of covid-19
pandemic.

Likewise, Pakistan has also faced many challenges due to economic turn down of covid-19 pandemic. Being^a developing country Pakistan had to face worst economic challenges. Industries were closing and exports were also stopped due to world facing the worst economic turn down. According to the National Economic survey of Pakistan, Pakistan had faced 1st that much decline in 68 years during the 2020 pandemic. This is worst sign for developing country like Pakistan to see such below. This shows that

Pakistan is also among the countries who have faced worst economic conditions during the 2020 pandemic.
