The identity and pride of a country is only its people and public. In recent, it does not seem like that in the country, everywhere seems like chaos and uncertainty. Thus, some political parties are making public fool and deriving for own benefits. They are using and rebelling the public for own purposes and interests. Therefore, the country is facing miserable fault lines and it has become possible due to chaos and unrest situation. Similarly, various causes are behind the fault lines of division in Pakistan such as, lack of sound policies and planning to turn out from this critical situation of the country, failure of governance to fulfil core objectives: lack of accountability and political turmoil leads more unrest situation in the country. Moreover, Populism is on its peak: single party is disseminating chaos and instability, looming unrest and chaos between public and government and electronic and digital media follow favouritism for its vested interests. These ~~are~~ certain responsible causes are behind for fault lines of division. In similar vein, some certain consequences are including the reputation and diplomacy of country is on verge of collapse, the country towards looming default-like situation and creating law and order situation. In addition, historical economic crunch popped up, decline Foreign Direct Investment (FDI) and the poor and middle class people are the most

suffered by emerging uncertainty in the country. As every issue has certain measures like, setting a strategy and making plan to save country and evacuate from default-like situation, avoiding economic meltdown for stability of the country and country's peace and mitigating misconceived and controversial concepts between public and government. Recently, fault lines of division in Pakistan are emerged due to some political and governance issues. Thus, these issues have rendered chaos and instability in the country and have left dreadful consequences. However, by adopting some preventive measures can steer out the country from critical situation.

Various fault lines of divisions in Pakistan are emerging. Apart from this, the country is already facing multiple threats and issues from internally and externally. Thus, these challenges are tough for the prosperity and peace of the country. Of recent, one more issue has added and created more uncertainty in the country. Due to all these circumstances, the country is going towards socio-economic crisis and political crisis. Moreover, these unrest situation have <sup>been</sup> emerged since before and after "Regime Change Operation". As result the situations are becoming worse everywhere. In addition, the country has lost its socio-economic reputation and has faced grave consequences. According to world Bank And Asian Bank Report, Pakistan's Gross Domestic

(GDP) growth is expected at 6.03% in 2022 and 3.5% in 2023. According Pakistan's inflation rate forecasted at 12.2% in 2022 and 18% in 2023. If the same situations will continue as result the country will suffer more holistic and dread full consequences. It reveals that the country is going towards fault lines of divisions in Pakistan.

## CONCLUSION

In a nutshell, fault lines of division in Pakistan have become serious issue and threat for ~~the~~ sovereignty and reputation of the country. These fault lines are taking ~~the~~ country towards at risks and backwardness in socio-economic sector. Hence, some causes are behind the fault lines of division such as, lack of some policies and planning to turn-out from these uncertain situations, political turmoil leads more unrest situation in the country and looming unrest and chaos between public and government. Similarly, some are consequences such as, the reputation and diplomacy of the country is on verge of collapse, the country is towards looming default-like situation and decline in Foreign Direct Investment (FDI). In order to combat these unrest and critical situations, setting a strategy and planning to make country's strong and eliminate from the default-like situation, avoiding economic meltdown for sustainability of the country and mitigating misconceived and controversial concepts between public and government are needed. These causes

and threats can be overcome by taking suggested remedies. In a result, <sup>there will be</sup> no more fault lines in Pakistan.

(GDP) growth is expected at 6.03% in 2022 and 3.5% in 2023. According to Pakistan's inflation rate forecasted at 12.2% in 2022 and 18% in 2023. If the same situations will continue as result the country will suffer more holistic and dreadful consequences. It reveals that the country is going towards fault lines of divisions in Pakistan.

The numbers of ~~fact~~ causes are responsible for fault lines of division chief of ~~the~~ them is lack of sound policies and planning to turn out the country from this critical situation. It means that in effective process of some certain principles and plans of action adopted or proposed by government, not fruitful for peaceful situation. Although, less considerations of the government contributes or results further risk of instability, threats for security of the country. As result of, the most part of the country will face more danger response from market, ~~with~~ higher burden shift on the poor, daily wages and rise in inflation too.

If this type of circumstances will continue further, the country will go back for decades, it will difficult to regain its sovereignty and its originality or its stable position. For instance, the political

instability in the country as results of policies and plans ~~have~~ will not keep any significance; both are inter dependent. Hence that, the government should play its role for making certain policies and plans, make sure the country will stable.

Not only lack of sound policies and planning to turn out the country from this critical situation but also failure of governance to fulfill core objectives of the country: lack of accountability. Accountability literally means the ability and duty to report (give account of). It asks questions to government, it entails to complete the core objectives and to meet the responsibilities. Pakistan is a democratic country, free corruption system, free and fair election system and every individual is accountable for his actions. But the lack of accountability is giving rise many problems; not meet the core objectives of the country, including, rule of law, free and fair election, honesty and will of people so on. Moreover, due to lack of accountability, the corruption is on peak, those people dozens of individuals have no interest in helping the public. Hence, the need of hour, need a corruption free system which can uproot the phony policies of government and establish new policies based on the will of people.

For instance, accountability is an absolute necessity for an organization to sustain success, all the government holders and servants are answerable to the general public for their actions. Thus, failure of government to fulfil core objectives of the country: Lack of accountability.
