~~The~~ Education and morality

Precise

rewrite this sentence

There are different thoughts about the freedom in education for children. One of these thoughts is that children should be in complete freedom and in this freedom, they must be virtuous. This statement has not logical meaning. ~~The~~ author disagrees with those who think that education should be only for development and do not focus on character building. Co-operation can not be possible without being virtuous in a society. Although, the development in technology has become possible due to education, virtuous and benevolence characters can be achieved through education. it must provide morality. ?

Title

cultural changes and colonization

Previ's

philosophical and logical aspects of a culture make up the structure of a society. The changes in these aspects have also influenced the original structure of a culture. The cultural and social issues are studied under the same light. There is a need to solve cultural issues under the broader perspective. These issues originate due to colonization. British colonized various countries and there had a large impacts in their culture. They faced great difficulties in developing their traditions. Colonial and tribal people lived with their enemies. Colonization broken their tradition and land which emerged out as new independent states.
