

Corruption in Pakistan.

VERY GOOD ATTEMPT

Corruption means the financial damages being done from the public wealth to private ownership. This menace has maximised the economic and social affairs, and the social fabric is highly damaged due to corrupt environment. The government is lawfully responsible to halt this damage causing shortcomings. The development sector is the ultimate medium for the growth of the society. The society must push up such initiatives for the interest of the state. The state prime objective is to ameliorate the living standard of the people and forced the development by introducing welfare and updated policies for the development of the state's economy. Therefore, the draconian law is the need of the hour, which can cease the corrupt environment for the uprisal of destruction. However, the development or SDG's are impossible to be achieved in the presence of the corrupt environment. So to conclude, the above topic, is the government putting the state into progressive alliance? The regional alliance back up and swift justice system is the only way to halt the corrupt activities in the society.

"Both parents should assume equal responsibility in raising a child."

Both parents must give full attention to the growth of the children. The socialization period must be taken seriously and seriously, so that it can ameliorate and engross the child on usefull activities otherwise the child would adopt the wrong direction. The government must also play pivotal role for the upgradation of the living standards of the people. The financial assistance must be considered for the well standard of living. The parents prime responsibility is to maintain the economical and moral growth of child, as the child would assume the status of parent. It is the phenomenon of the society, that the child would assume the status of parent. The re-cycling period would take time but it is the critical recycling which need full-attention of the people. Mother is the only source, through which the child mentorship could be done wisely. In law the child is the collective asset of both parents, so that both should take participation in raising a child.

However, the patriarchal society has opposite thinking and attitude towards the raising period of child. The patriarchal society consider the wife or women as the only sole responsible in order to give nourishment to the child. While it is an awkward trend, which is causing plenty of issues including the child thinking power and attitude of child. The participation of both parents may nourish the child with enthusiastic attitude. The mass and eminent initiatives would help the people to give the highly recommended actions for the benefits of the society. The social fabric must be strong and cement the progress that it could lead the people for the leadership and fight for the right. The only source of development is the engagement of youth in the development of state institutions. The growing concern may bring the shortcomings in the institutional affairs of the state. The government must recommend the high sources for the development of the classical attitude of the society. For the development of the society.

"People have become overly dependent on technology."

People have become the great and highly dependent to meet their challenges and ameliorate the standards of living. The highly achievements in the technology sector has made the people so as the comfort zone may be maximised for the welfare of the recommended attitudes of the Society. The technology has gained milestones, which are not possible from any other way. The speedy progress of technology has ensured the security, medical, economical and social standard of the people. The critical dependence on technology may also give birth to many issues as well so that it can upgrade the standard and backwardness of the social fabric. The Society must cover all that sectors, which are bringing healthy and wealthy resources for the upgradation of the living standard of the people. The great dependence on technology may cause too much problems for the people. The tiny blockage in the technological sector may disturb the colossal business sector of the globe.

the dependence on technology may bring serious issues, where the technology itself will not handle the issues. So for this purpose the highly recommended initiatives must be taken for the benefits of the people. However, the technological dependence may also ameliorate the shortcomings in the development sector of the state. The highly recommended attitude must be adopted for the benefits of the society. The economical sector may need full and great supervision so that it can be made effective for the benefits and usages of the medium. Such ingredients must be supported so that it can upgrade the living standard of the people. The under-developed states are economically feeble, due to which the installation of technological equipment may be financial burden for the developing country. The developing states must utilize their resources with full attention otherwise the corrupt usage may bring many challenges for the society and social problems, which are concern to it.

Menace of terrorism :-

Terrorism means the threat being imposed by the non-state actors, in order to attain their demands. ~~the~~ Mostly, in security state the security issues are at large, the attacks and bombing is part of daily routine. While the economy and social sectors are badly disturbed from this menace of attacks. ~~the~~ brutal attacks are done on naive people, which is against the law and morality. ~~the~~ bloodbath is at peak and people are living in the environment of fear. ~~the~~ security and politics must be dismantled from each other. ~~the~~ imposition of valid policies may overcome the terror attacks. ~~Due~~ to political warfare, the government failed to implement the policies, such policies are frozen. Now the military and political representative should be on same page to thwart the terrorism and uproot this menace, which is disturbing the social fabric of the state and nosedive economy of the country.
