

Negative effect of social media on youth is mainly on Education. It has been seen among youth that they have reduced their learning and research capabilities. Youth, while seeking and concentrate on the web not able to deliver their work in the specified time frame as their time wastes.

According to International Journal of Computer Science and Engineering the increasing popularity of social sites like Twitter, Facebook and LinkedIn, social networks has gained attention as the most viable communication choice for the bloggers, articles writers and content creators (Oct, 2017). Thus social media has great effect on our capabilities.
