Precis:

Title:-

Poverty is also a Blessing

People consider that poverty is a bad thing and rich people are blessed with all facilities of life. Usually poor's life is satisfactory as compared to rich. In author's view, servants look after the rich kids and they missed the parents love and care in that stage. The author thinks that Indigent home is actually sweet one because there is no baffling and jealousy in social status. They are united in any family's interest. It can be seen that immortals were born poor. In his view, instead of abolishing poverty, it would be more appropriate to abolish luxury.
