

SUB-HEADING:- NEGATIVE EFFECTS OF SOCIAL MEDIA ON YOUTH (CYBERBULLYING).

NAME:- MEHAK

BATCH: RWP-38

TOPIC SENTENCE	The use of social media has evidenced various negative effects on youth, prime among which is Cyberbullying.
REASON	The anonymity factor that may persist when interacting on social media is one of the reason for bullying that some internet users are forced to experience.
SUPPORTING POINT	These online attacks often leave mental scars, worsen feelings of isolation, rejection, exclusion and despair. It leads to depression and anxiety which can contribute to suicidal behavior.
EVIDENCE	According to UNESCO institute of statistics one third of the globe's youth is bullied. This ranges from as low as 7% in Tajikistan to 74% in Samoa. Most of the suicide cases in such countries were of the persons suffering from cyberbullying.
CONCLUDING SENTENCE	Hence, the openness of online communication creates a favourable environment for harassment and affects the user behavior.
