### Title: Dealing of Teachers to the Children

According to the author, he suggests that it is an important ~~that~~ for the teacher to donot intervene children, ~~matter~~ but to enjoy their company. Adding to this, author also explains if teacher has positive linking with children, they will accept the suggestions as well as prohibitions. Children will never grateful, if someone creates expectation from them. Teachers need to join their party without any expectations and enjoy their party. Teacher who has this art to interfev in children life without any damage, they will achieve positive result. Owing to the lot of work burden, on teacher, they donot spend more than two hours. It is observed that when teachers creates strict discipline, result are more better. However, one cannot expect to create self discipline from children.
