Date:

Investment by Foriegn Countries and Individual :-

There is a need of investment by foriegn countries (FDI) or any individual capitalist to invest in pakistan. It is too much necessary for the devastated economy of pakistan to boost up. So government should take measures to adopt FDI by different programms. Pakistan is developing country and the core issue of the developing economies is to counter imports. Because in pakistan imports are higher and exports are so it exceeds to trade deficit. Government should take measures to adopt the policies in favour of foriegn direct investment to boost up the economy of pakistan.
