## Islamophobia.

**Introduction:** "There is only one Islam." (Statement by Imran Khan in UNGA) Why there is need to define Islam as a religion which is known to world for more than 1400 years. All human are the offspring of Hazrat Adam (Saying of our beloved last Rasool (S.A.W)) but now in most states, most countries, a discrimination has been build against muslims consciously or unconsciously. To marginalize muslims and to question muslims religion is becoming habitual in non-muslim circles.

Fear of non-muslims toward muslims and all the things related to muslims is increasing enormously, for there to counter this threat little effort made by muslims so, there is need to take effective steps to counter Islamophobia by muslims at every level to maintain peace in the world.

What is Islamophobia; According to 12th observatory report of OIC "Islamophobia is fear more precisely to extensive fear towards muslims

There religion and everything that is related to muslims like, mosques, Islamic Centre, hijab etc.

- 1) Islamophobia; Nothing to serious threat
- 2) Rising of Islamophobia, Manifestation
- 3) Reason behind this deadly challenge to muslims
- 4) Way forward to tackle Islamophobia.
- 5) Step taken to lessen effect of Islamophobia.

Islamophobia; Nothing to serious threat:-

Prior to 9/11 <sup>attack</sup>, this term was unknown to almost every region of world but now it is common and daily routine word now. due to

a) Misconception of Islamic Shariah;

This Misconception is found in both muslims and non-muslim world. In non-muslims world, People (thought) think that Islam has different version from moderate to radical one. Islamic Shariah is something most radical and compulsive version of Islam according to non-muslims communities. As French President Macron said "Islam wants our

future and it is problematic religion. On the other hand, misconception are also found in muslims communities. Muslims are not guided properly by scholars towards the concept of jihad. There is perception, anyone fighting with hindu, sikh, <sup>h</sup>christ or jewish are taken as Mujahid irrespective of context in which muslims have permission to fight by ~~God~~/Allah. Most of people of terrorist organization claim that they are fighting for God. So, there is misconception in both societies/communities.

#### b) Formation of fanatic Islamic Organization;

The formation of such organization and their action create blurred image of Islam in minds of people of different communities. People and countries are supporting these terrorist organization for their own purpose. These organization also work for their own political aims as Daesh working in Iraq, Hezbollah working on palestine.

boarders, Al-Qaeda has many root and spread in different countries. Are these organization ever established muslims law and make development according to Islam. The answer is no. Only suicide bombing, spreading fear, promoting terror to reach their own goal using Islam is deadly thing for muslims in the world.

c) Political agendas of western parties; word most popular leader of west are promoting Islamophobia during their campaign of election and also getting political stability in their region. <sup>As</sup> Trump use the anti-muslim card in election and said he would ban muslims in America after win. ~~but~~ Greet wilders shows through his statement that he wants Islam, muslim and Holy Quran ban in ~~the~~ his country. France president Macron also wants to put ban on muslim and related thing. These are some example elaborating how political leader using Islamophobia as agenda.

in their compaign.

#### d) Classes of ~~religion~~ Religion

Islam counter all religion when it firstly appear in arab. Shirk is part of almost every religion in one or other form and

Islam totally forbade it. Islam forbade to say God are three as Christian said, forbade to say many Gods as Hindu said and Jewish also have anti-Islamic formulation in their religion

So, there was mild hate always present in heart of non-muslims but now this Islamo-

phobic word provide platform to grow this hate how much any one can grow it. As Islam

counting all religion of world, the people raised their hatred toward Islam in new shape named

“

Islamophobia. Clean India of Jihadis whoever understands Quran is one.” (Hindutva leader)

Pandit speech in UP (India): This shows how much hate is found for muslims in non-muslims communities.

## 2:- Reason of Rising of this Deadly Concept:

### Islamophobia:-

The innumerable reasons are cause of Islamophobia.

Some of much prominent reason are;

#### a) Disunity of muslims world:- After fall of Baghdad,

muslims are divided into many countries in which modes of government are different from each other. Some are under rule of democracy,

some are under dictatorship, some are under monarchies and some are under communism.

The difference in ideology results in disintegration among muslims. Look, Pakistan is under ideology of

democracy and Saudi Arabia is under monarchy,

even almost every Arab country is under monarchy.

China is under communism. So, the difference

of ideology made muslims disunited and

integrated. Hence, muslims are unable to take

#### b) Economic condition of muslims world:

The muslims world's economy is lagging

behind all other nations in world. ~~is~~

Even Hindu majority country India is 5<sup>th</sup>

d) Some countries <sup>and Ulama</sup> are backing fanatic Islamic Organization;

Due to this backing, two things are happening. One fanatic Islamic organizations receive exence to run their organization and second young brain immediatly ~~attract~~ attract on the concept of jihad which is not real concept of Jihad. Some countries from muslim world silently supporting terrorist organization. To combat this, FATF organization that was dealing with moneylondring also given the task to <sup>made</sup> check on funding to terrorist organization.

It shows some countries are involved in terrorist funding. When this netype of news break in world that muslims countries and Ulama supporting these organization made muslim's image worse in whole world and people stratt hatred, leading to rise in Islamophobia.

3) Step taken to combat Islamophobia;

Some major steps have been taken from muslims to combats Islamophobia;

a) OIC observatory Report to defining, reasoning and combating Islamophobia;

The 11<sup>th</sup> observatory Report of OIC gave proper definition of Islamophobia, They also discuss reason of Islamophobia and how to combat Islamophobia. By doing this two benefits are gained. One is muslim leaders felt the intensity of issue and second through media people receive a positive message that muslims are taking step to reduce this deadly and narcotic phobia and hatred is lessen for muslims.

b) Sensing of intensity of issue by UN and 15<sup>th</sup> march; Day to combat Islamophobia;

This issue is also sense by UN as it is most growing concept. Another positive step is of 15<sup>th</sup> march declared as combating day to Islamophobia. By celebrating this day, muslims have a great chance to clearify the real image of Islam by made speeches, public gathering, writing books, column and the whole day to discuss the issue hopefully lessen the intr...

c) FATWA from Ulama on joining Fanatic organizations;

Some Ulama take stance responsibly and gave FATWA on joining fanatic organization. one such FATWA given by Islamic Scholars <sup>Mulana</sup> Tahir-ul-Qadri that terrorist have no religion and Islam has nothing to do with these organization. This type of steps surely discourage muslims to join these fanatic movements.

4) Steps should be taken to combat Islamophobia;

a) Unity and Harmony should be promoted among muslim countries by their leaders;

This is already known that muslims have different form of ideology and government system in their countries, but then, on some of issue which are chronic for muslim world like islamophobia, Palestine issue, Kashmir issue. muslims leader should throw their interest

own one side and sit and take effective steps collectively. collective voice cannot be neglected

by muslim world as about incident of

Nurpur sharma in India, the steps taken be most of muslim countries by banning Indian

products. This step helps in taking action against that women. So, collective and effective voice of muslim can lessen the intensity of issue.

b) Improvement of Economy of muslim world;

In present world, To acceptify your stance on global level you need a strong economy of country. Simply, if people finds interest with you, they support your stance. By observing this rank of acceptify to stance, All muslims countries take serious and immediate step to rectify their economic condition. So, to hold some position globally.

with this, muslims can lessen propoganda created by westren leaders, to of demonstrating cruel and brutal image of Islam.

d) Ulama, Intellectuals, Generalists, writers should step forward and play their R rule; There is high need of combating ideology by ideology.

If we see the time of Nabi <sup>Pak</sup> (S.A.W), he combat lesser with sword but with the giving ideological combat against other ideology

and concept.

Rectify the present educational condition of muslim world;

The root cause of all damages to muslim world is lagging behind in education. To combat every issue globally including islamophobia, muslims need to rectify Islamic educational system.

If we only see condition of pakistan, Every second citizen is master degree holder but the quality of education is below the line. So, an advanced and based on Islamic reforms educational system is demand of this era for muslims.

Allies of muslims military Under OIC :-

OIC is muslims most prominent organization

There should be allies of all muslims armies under one flag. So they become united

for in defence also. After many year of Iraq war, NATO and America, now condemned their

own action of annexing Iraq. Why not

muslims were there to condemn ~~isra~~

the annexing to in muslim country, because

Date:

was disunited. If NATO and America had to face a muslims allies there, surely never take a step to annexed muslim countries recklessly. Single military allies remain helpful against conspiracy created by Indians, Israel and other west country ~~to~~ creating bruttle and crud, ~~paroxysmic~~ image of Islam.

In a nutshell, There is high need of time to combat misconception of Islam by taking serious step. Solution to every problem is discussion ~~of~~ <sup>and</sup> dialogue, as it is in example of Nabi - pak (S.A.W) and Quaid-e-Azam. The conquerer of Makkah without war, Quaid to de pakistan without war but with providing clear and crystal clear of image of Islam and their own character. Muslims also follow the same method to demolishing Islamophobia from mind of all people of world, and made world a peaceful place to live for all cultures, all religion and diversity of universe could be
