impression in which political instability. Abbas Nasir, "The issues the matter," 11 December 2022. Social media is one of the major factor which increasing problems and distraction among politicians. Due to this reason situation getting more worse day by day. Politicians mostly blame each other for all the disturbance. Imran Khan said, "his fall down is a cause of foreign conspiracy". He blames this on PDM and while, he has no valid proof. So, they neglect him. PDM also creating instability by increasing tensions between PDM and PTI and also having no control on GOP of Pakistan. Pakistan is near to default due to political instability.

Political tensions are not reducing instead increasing day by day. Mostly leaders say they will

overcome the situation next time but they are unable to overcome that. Their promises are just promises. They are alike, "A man of words, not of deeds". Political diverse situation is affecting not just economy but also public, their needs, education system and inflation.

Maheeha Lodhi, "Elite Politics" 5 December 2022.

As Political instability increasingly tensions also increasing in country. Pakistan is facing GDP loss gradually. Inflation increasing, prices raised and tensions among people also occur. Society get instable due to emergency situation, while, when emergency situation occur article 232 applied.

Ahmed Bilal Mehtob, "Emergency Provisions," 25 December 2022.

Political tensions increases, when Imran Khan announced to dissolve assemblies in KPK, this emerge

pressure on economy and stability of Pakistan. Mostly Political leaders are involved in corruption they are not sincere with their parties and also not with the country. Political leaders and party members not taking serious notice towards this instability which increasing pressure on GDP of Pakistan and also there is disturbance occurring and stretching the situation. Foreign investment is disturbing. Pakistan applied for debt to IMF in 2021 while, Pakistan have't fulfilled that demands which IMF put due to that debt delayed because of political instability in Pakistan. Political leaders were not more focused on economy and growth. After a long period, Pakistan applied these demands by reducing expenses and facilities in governmental structure. IMF approved debt in

2022. Due to political instability there was also delayed in CPEC which recently again started.

Political leaders often blame each other for instability instead of taking any step towards progress. **Malzecha Lodhi, "Playing by the rules"; 26 December 2022.**

Due to Political instability, poverty, unemployment and many other tensions like this increasing day by day. There is lack of justice among people on different matters. Rich people getting more rich while, Poor getting more poor.

Government and Political leaders should have to take major steps to overcome tensions among people and save country from default by saving economy and GDP growth rate. Political leaders and state should provide

healthcare facilities, education and further opportunities to people so, they can make GDP and situation of country better.

Umair Javed, "Ignoring the state," 26 December 2022.

Political leaders can make a role in country's progress by improving their relations with each other and with people - their motif should be betterment of country and people instead of their own interest. In this way, situation might get better in country and among political parties.

Conclusion:

Country's progress depends upon the political parties. If political parties resolve their issues and more focused on the development and progress of country, situation can get better and also problem of instability can be resolved by taking few important steps by political leaders.
