the human bloods being ruthlessly shed artiful traffic accident, has no paralell. The large number of such accidents are bewildering. Such a harrific number is the point of pondering for everyone of us to see the bosic causes of such events though there is no doubt teal the population of Polaisten has abouble in the past years, and no such measures has been taken to deal with the heavy knowing. A per the changing needs, the roads were not without of the trapper signals were not maintained. And so for the public gothering for protest, there are no such signals which can have check and balance over the one violeting. To cold jarther who drahe blood shed, it can be witnessed that drivers one addicted of intoxicent while driving: So, when such drivers one cought, they should be punished that will be learning lesson for the Jellow drivers . Further, the institutes should be there to give proper quidonce to drivers about the right rules and regulation of driving, to cold more, the public should be educated over the educations of how to travel on roads, to that the innocent soul do not get lived. Even encroachment should be removed as they are the stumbing block in the way of peeceful hoffic. Recently Major Azhar Lahore metro bouton corporation

have initiated certain steps for remaining encrockment.

Therefore everyone should after them under cooperation in this regard. Last but not the least, the happic beside needs to bald educated ethically so that they are not bribed at low rate and leave the one violating the happic law instead the violators are punished by the happic constable.

RANSLATION The wide land of Pakistan is the Precious wealth for itself. The upper and lower Land area of river indus are considered as one of the most heart word. Since history these land greg hold auspacious centre in ovena of exhibity! Reeson is that every kind of pruity and regetate are grown at large quartity over here. And so it is estimated that agriculture Sector Contributes large percentage in row-material production and even employ & fifty-five percent of the cabas force. To cald for their the contribusion in export is of seventy percent. And so this is why Polision is ahead of agriculture sectors even is included in the group that is working for upgreately op of this sector. The domestic scenerio propose that Politico has become self-sufficient in nce cotton and Sugar-cone production. In order to maintain this, and allevale it for expent the efforts needs to be speed up. Forthern Agriculare research is wastering really well to improve the conditions, and results can be seen in increasing the pareign exchange through this. satisfactory 5/10
