

Please answer following question as papers are near so i am confused.

Q: For questions on political philosophers, how can we give the relevance/application of their philosophy in modern world.

Please elaborate this point.. How we can attempt questions on philosopher and how we can relate things in contemporary world.

By telling and relating the philosophy with principles adopted in current political order.

For example, montesquieu's theory should be related to Us constitution. Marx's to china's system. Etc
