Criminology elart-II Section+1 Rise of Crime in Sindh 93 and Balochistan due to floods E theories applied Introduction :-Disaterous floods due to heavy monsoon rainfall has affected 1/3'd population of pakistan severely. This has not just resulted in econumic clisis or threat to survival but also increased the ratio of crime In flood affected areas especially sindh and Balochistan. Rise of Crime in Sindh & Balouhistan Amid the deteriorating law and order situation in the country, Sindh especially Karahi has witnessed an "alarning increase" in steelcrime, exacerbated by the recent-floods, Geo news reported citing sindh publice officials

Scanned with CamScanner

Floods have caused havoc economic disaster that has surge the poverty rate by 2.5 by percent, pushing 5.8 and 9 million people into poverty according to the world Bank (6,000 2022) Inflation has added more misery from buching highest percent 27.1. in last north (Novo2022, Dawn) by CPI. Many factors contribute to crime rates due to flood; unemployement, inflation, poverty, population, humanitation crisis, lawlessness and incompatability of law agencies. Social structure theory The reasons for rise in crime in flood affected areas can be related to Social structure theories as it defines unequal distribution of wealth and poverty. poverty can be stated as biggest factor for crime. Child poverty poverty during early childhood has a more servere impact than during adolescence. Lowincome children are less likely bo achieve in School-Social problems in lower-class Slum areas are epidemic. Due to havoc floods, poverty has increased and children are deprived of education and involving more in speet crimes. Underclass Culture of poverty is passed from one generalion the next. Unemployement and underemployement disrupts family life and creates despuir.

The main's reason of crime is defined as social and economic forces in deteriorated lowerclass areaspush residents into criminal behaviour patterns. Social structure theories include social disorganization, stain theory and cultural deviance theory. Social Disorganization Theories This theory links armenates to neighborhood ecological characteristics. Social disoganization includes low income groups with large single parenthouseholds and institutions of broken down social control. Floods in pakistan have induced all the factors leading to crime caused by Social disorganization. =) The work of Shaw and Mckay They linked transitional sumarees to inclination to commit orline As it can be dearly seen the most affected areas by flood were slum areas In rural aly slum children choose bjoin gangs when values are in conflict with existing middle class norms. Concentric zone mapping identified inher-city zones have highest crimerate The Social ecology School It believes community deterioration to have association with crime. Disorder, poverty, alienation, dissociation and fear of crime are characteristics of community deterioration. Eonomically disaducentaged

formal conclusion is missing

10/20

over all ans is well composed and according to the question asked

Clinging to lower class focal concerns promotes illegal or violent behaviour.

Theory of Differential oppurtunity

Richard cloward and lloyd ohlin suggested people share the same yoals but have limited means to achieve them. Because of differential opportunity, young people are likely to join gangs. Criminal gangs existin stable neigh boihoods Conflict gangs develop in areas whable to provide

legitimate or illegitimate opportunities.

Social Structure theories and

come ratio in pakistan

Social structure theory appliests the currentcrime situation that has skyrocketed due to havoc floods causing povery, unemployement, unequal distribution of funds to sinch and balochistan, inflation etc. These situations have deprived people of patristan in Sinch and Balochistan tom equal oppurtunities or means For achieving their goals or fulfill their recessities causing them stress and fustration leading to anti-social and criminal behaviour.
