

ESSAY: "Despite its urgency, climate crisis remains the most neglected cause"

### OUTLINE:

#### 1. Introduction:

T.S: Despite facing climate crises, nations in the world have continuously neglected this threat due to self-serving interests. However, integrated speedy action is required by all the nations to mitigate the damage.

#### 2. Negligence of climate crisis and its urgency.

#### 3. Why does climate crisis remain the most neglected cause despite its urgency?

- (a) "Redirect Responsibility" A blame game tactic to delay climate action
- (b) Extortionate debt forces nations to pursue climate-unfriendly policies.
- (c) War and conflicts are global climate killers.
- (d) International organizations lack enforcing mechanisms to lessen climate ~~crisis~~ risks
- (e) Bad Governance exacerbated Pakistan's Flooding

#### 4. Consequences of neglecting climate crises:

- (a) delaying climate action can increase  $\text{CO}_2$  concentration in the atmosphere
- (b) climate crisis will cause once dormant viruses to reemerge
- (c) lethal wildfires, due to shocking heatwaves and loss of biodiversity
- (d) rise in sea levels will sink coastal cities leading to mass migration
- (e) decrease in agricultural productivity and looming shadow of food insecurity.
- (f) Further delaying climate policies will hurt economic growth.

#### 15 How neglected urgency of climate crisis should be responded?

- (a) By ending debt traps for developing nations
- (b) Keeping climate cause above all geo-political and geo-economic interests

(c) Implementing Action oriented policies

(d) Strengthening the role of International organizations on curbing climate crisis.

(e) Implementing Sustainable Development Goals

6. Conclusion.
