

Negative effects of social media on Youth

Topic Sentence	Social media has adversely affected youth in many ways.
Reason or Explanation	The reasons are multiple however the most common is social isolation and depression.
Supporting Point	The above explanation can be backed by a point that out of all age groups, teenagers are susceptible to social and destructive nature due to excessive usage. Youth spends more less time connecting with their peers which results in depression and social isolation.
Evidence	According to research conducted by Royal society for public health in UK, eight out of ten social media user from youth are prey of depression.
Conclusion	When something is offered free, it takes your time, energy and also affects personality, therefore it can be concluded that social media is a curse rather than blessing.
