SUB-HEADING: Nuclear challenge to World peace during 21st century.

TOPIC SENTENCE: Nuclear weapons are one of the major challenges to world's peace during 21st century.

EXPLANATORY SENTENCE: Use of nuclear weapons anywhere in the world will have disastrous effects on environment as well as world's peace.

SUPPORTING POINT: Nuclear weapons can cause irreversible damage to the environment by killing thousands of people and causing multiple horrific injuries. It can severely disrupt the Earth's ecosystem simply by having its disastrous effects on food chain, water supply, agriculture and health infrastructure and destruction of peace globally.

EVIDENCE: The massive arsenals held by US and Russia can create a nuclear winter, destroying Earth's fundamental ecosystems, on which all life depends.
(ipnw.org)

CONCLUSION: So, nuclear weapons are immensely ^{destructive} dangerous for the environment and world's peace.
