Nuclear Challenge to World Peace During the 21st Century (Sir Arif)

Topic Sentence:

The nuclear weapon is still one of the most dangerous threat and nuclear challenge to the world peace during the 21st century.

Explanatory Sentence:

In nuclear wars, we have seen both the damages immediate & delayed effects. Like blast effect, thermal effects, radiation effects & long-term effects.

Supporting Sentence:

Blast effect is the initial effect or damage produced by a nuclear explosion. Thermal effects (approximately 35% of the energy from a nuclear explosion is an intense burst of thermal radiation. There are several kinds of radiation emitted from a nuclear explosion including gamma, neutron, & ionizing radiation. Also, there are long-term effects on the atmosphere & climate due to nuclear explosion.

For Example:

If we talk about Russia & Ukraine war due to the war other countries are also facing the challenges like delays in oil supply, hike in fuel prices in EU countries. Most of the experts fear ~~could this that could~~ due to this war which is impacting the environment that fear is increase in cancers & other illness among civilians. (Washington Post Mar-2023).

Conclusion:

The world is facing multiple challenges but the nuclear challenge to world peace in 21st century is one of the most dangerous threat for the future generation which is still not ~~solved~~ resolved.
