

Artificial intelligence. a collective said suicide.

1. Introduction

2. How artificial intelligence is a collective welfare.

- a. Artificial intelligence is enhancing efficiency and productivity
- b. Advancing health care and medicine
- c. Transforming transportation and mobility
- d. Empowering education and learning

3. Threats associated with artificial intelligence

- a. Jobs reduced by artificial intelligence. Freelancing
- b. Existential threats posed by artificial intelligence. May take over humans
- c. Autonomous weapons and warfare
- d. Misuse of artificial intelligence in cybercrimes

4. Suggestions to mitigate possible threats

- a. Ensuring that artificial intelligence is programmed ethically and safely
- b. Promoting artificial intelligence literacy and understanding for job adjustments

Date: _____

c. Building international cooperation to avoid artificial intelligence warfare

d. Ensuring transparency and accountability in artificial intelligence algorithms

5. Conclusion

One of the most rapidly advancing fields in the realm of technology is artificial intelligence. As the world becomes more digitized, the potential of artificial intelligence to revolutionize the way we live, work and interact with each other is becoming more apparent. Considering the positive aspects of artificial intelligence, it is for sure a collective welfare. Artificial intelligence is enhancing the efficiency and productivity. It has boosted the technology in the fields of medicine and transportation. It has empowered the learning techniques. However, there are several threats associated with artificial intelligence. It has deepened the unemployment and cyber crimes. On the other hand, AI is posing existential threats to the entire human race by its nature of adapting and evolving. These possible

threats can be mitigated if properly managed. Ensuring that AI is programmed carefully and ethically. There should also be focus on building international cooperation Co-operation to avoid any major warfare. Overall artificial intelligence is a collective welfare, although there are some threats associated with it. Those threats can be reduced if properly and willfully managed.

T.S The collective welfare of society is significantly impacted by the positive influence of artificial intelligence, as it improves efficiency and productivity in various various domains.

C.S Thus, artificial intelligence's role in enhancing efficiency and productivity goes hand in hand with promoting collective welfare.

T.S Furthermore, artificial intelligence is advancing health care and medicine, which ~~results~~ lay grounds for the collective welfare.

C.S To sum up, the collective welfare is achieved due to the advancement and in health care and medicine by A.I.

Date: _____

T.S Moreover, artificial intelligence is transforming transportation and mobility, which serves as a collective well-being.

C.S As a result, collective well-being is gained by the transformation of transportation and mobility.

T.S In addition, artificial intelligence is empowering education and learning which is the be all and end all for the mutual welfare.

C.S In brief

In brief, collective welfare is attained thanks to artificial intelligence which is empowering learning and education.

In previous paragraphs, the factors which show A.I is a collective welfare were discussed. The ~~coming~~ coming paragraphs will highlight the threats related with A.I

T.S There are several threats associated with artificial intelligence, but the most detrimental one is in the shape of unemployment.

C.S As a result, it is evident that A.I is reducing jobs.

T.S Simultaneously, A.I may pose existential threats to human race because of its adapting and evolving nature.

C.S To reiterate, human race is in danger due to the adaptive nature of A.I

T.S Consequently, the integration of A.I in warfare through autonomous weapons poses complex security risks.

C.S Given these points, artificial intelligence is posing security threats by the development of ~~an~~ autonomous weapons.

T.S Lastly, the artificial intelligence is misused in numerous cyber crimes.

C.S Hence, the misuse of A.I in ~~cyber~~ cybercrimes poses significant threats to individuals, organizations, and society as a whole.

Buffer thesis

T.S An actionable step to take is ensuring that A.I is programmed safely and ethically.

C.S Thus, it can be concluded that by ensuring the A.I is programmed ethically and safely its threats can be mitigated.

Date: _____

T.S Another effective strategy to reduce the risks associated with A.I is by promoting its literacy and understanding.

C.S In a nutshell, ~~by~~ promoting A.I literacy and understanding can ^{be} ~~help~~ ^{useful} in job adjustments.

T.S Taking concrete step such as international co-operation ~~to~~ can be beneficial in avoiding A.I warfare.

C.S Overall, to avoid A.I warfare, the global co-operation is must.

Conclusion .

Both Parents Should Assume

Equal Responsibility in Raising a Child

I. Introduction.

Raising a child is a tough job for which both parents should assume equal responsibilities. There are challenges for men and women as parents in raising a child but if certain steps be taken in proper manner these challenges can be overcome reduced.

II. Why both parents should assume equal Responsibility in raising a child.

- 1) Raising a child is a tough job which comes with great responsibility.
- 2) The children require love and affection along with strictness by parents
- 3) In character building of a child both parents have to play their roles
- 4) If proper time and care is not provided, the children may develop psychological issues.
- 5) Economic issues may lead both parents to work so work so they have to give equal time to children.

III. Challenges for men and women as parents in raising a child with equal responsibilities.

- 1) Egoistic nature of men ~~tend to~~ is a stumbling block for them to participate in house cares.
- 2) Patriarchal ~~so~~ form of society has provided gender roles which cannot be violated in their doctrine.
- 3) Joint family system ~~has~~ creates inconvenient environment.
- 4) Economic Work load on both parents

IV. Remedial measures.

- 1) Awareness programs to educate parents about the importance of raising a child.
- 2) The role of muslim scholars and ulama in provoking awareness is crucial
- 3) Changes in joint family system and tradition.
- 4) Child care services at workplace for both men and women.

A child is among the best blessings from God to a person. Becoming a parent is a special feeling. However, raising a child is an important and a tough job which require both parents to assume equal responsibility. The child need love and affection along with some strictness for their character building. There are possibilities of psychological issues if proper time and care is not provided to the children. There are several challenges for both men and women as parents while raising a child with equal responsibilities. Egoistic nature of men and patriarchal form of society are the major stumbling blocks. Similarly, inconvenient environment is a bi-product of joint family system. Economic work load creates pressure on both parents. In order to tackle these challenges, there are certain remedial steps which are to be taken in our society. Awareness provoking programs about the importance of raising a child should be increased. Muslim scholars and ullema play a crucial role in this regard. In addition, there must be some ^{structural} changes

Date: _____

made in joint family system. Importantly, ~~child care services for men~~ both at ~~work place of both men and women~~ be introduced in our society. Overall, raising a child is an important task which require attention of both parents. There are ^{several} challenges, but, with proper and willful actions those can be mitigated. ~~overcome. may mitigated.~~

THE MORE YOU SWEAT IN PEACE THE LESS YOU BLEED IN WAR

1. Introduction
2. Contextualization of the term sweating in peace
3. Why preparations for hard times are crucial
 - a. At an individual level one can face bankruptcy and in extreme condition may commit suicide
 - b. A bankrupt country loses its standing among the comity of the nations and cannot follow independent foreign policy
 - c. When a nation does not have enough food to feed its people it faces social, economic and political consequences
 - d. Brushing the climate change under the carpet may result in irreversible damage
 - e. Another world war in this nuclear age can throw the world back into stone age.

4. Stumbling blocks in the way of preparations for hard time ahead

a. It is difficult for an individual to save money because spending money on unnecessary things and maintain social status.

b. Elite capture of the economy and resistance from political section do not allow country to become self-sufficient

c. Food insecurity is because of primitive agricultural practices in third world country is another hurdle.

d. Coal power and dependence of first world countries do not allow change

e. Political meddling and tussle for power in the United Nations cause impotent world organization.

5. How to avoid difficult times in the future

a. At individual level preparing for rainy day can reduce future hardships

b. A country can prepare best for financial meltdown during time of boom

c. A nation can protect itself from food insecurity by saving in times of abundance

d. World can avoid future environment disasters by preparing when we are far from ecological collapse.

e. World war three can be avoided by empowering ^{the} United Nations now

6. Conclusion

In the annals of history one can notice that the great nations were those who predicted the challenges that their nation can face in near future. These great powers then started preparing for it before the storm hit their shores. It is important to prepare for tough times during times of ease ~~At~~ either at individual level or at national level. Similarly, ignoring the issue of climate change and global warming may cause irreversible damage. The world can go back to the ~~stop~~ stone age if another world war is witnessed in this nuclear era. There are several stumbling blocks in the way of preparations for tough time ahead, such as, the elite

Date: _____

capture of economy, primitive agricultural practices, and the dependence of first world countries. Also the tussle for power in the United Nations cause impotent world organization. ~~However~~, These hurdles can be avoided by proper and wilful steps taken in the right directions at right time. An individual can prepare for rainy day to ~~to~~ avoid future hardships. World war three can be avoided by empowering the United Nations. Overall, preparations for hard times is of ~~immense~~ immense value, there are certain hurdles which can be overcome if properly managed with in time.
