"Body paragraph"

Exacerbating Islamophobia;

Islamophobia is being exacerbated day by day in the western countries. western media and politicians are playing pivotal role in promoting Islamophobia. Resultantly, non-Muslims start revoluting against Muslims and they are trying to hurt Muslims' heart through blasphemy and discreditation of the Quran. Recently, News is waving in social media and international media that a irani refugee burnt the Quran in front of a mosque in Swedish. This was neither the first time nor the last time, because of the fact that this type of incident was taken place by politician in Stockholm in January. These both incidents were condemned by the Swedish official despite having been protected the right to freedom

of speech and expression. There is no single law to overcome these sort of incidents except international law. To sum up, in the western countries, Islamophobia is being promoted and exacerbated on the daily basis.
