

Topic sentence: "Economic instability increases due to political instability"

Pakistan is facing severe economic blow due to the political unrest. Whenever a country is facing ~~turmoil and turbulent political~~ political turmoil, it affects its economic growth. Pakistan is in a vicious cycle of political parties vengeance. It is seen from the history of Pakistan, whenever there is political haphazard, it will affect the economic growth. Researches show that in 1999 during military regime the economic growth was 4.2% and by the end of this political military regime in 2008, the growth was 1.7%. This decrease in economic growth is a clear indication that the unrest in political office will affect the economic growth/development in the country.
