

• Negative effect of Social Media on Youth.

Among many negative effects of social media, fear of missing out is emerging in youth. Fear of missing out could result from not knowing about a conversation, missing a TV show, not attending a wedding or party. A phenomenon in which individuals keep in touch with social media. Smartphones enable us to connect to social media and other professional networks continuously. Research and scientific studies showed that fear of missing out has been contributed to numbers of negative psychological and behavioural symptoms. Are you missing out. Anderson Hephibab. The Guardian 2017. This negative effect of social media could lead to many other problems in youth.
