

Paragraph writing

Displacement

Subheading: ~~Disaster~~ caused by floods
in Pakistan

Pakistan has not yet recovered from the disaster caused by flood of 2022. These floods caused by rainfalls affected the state immensely. The floods killed hundreds and displaced many. Nearly half population was affected. According to Shahid Javed Burki, by August 2022 nearly 33 million people were affected by the flood. It displaced half a million people and many had no place to go. (The Express Tribune, September 2022). The affected everyone in the country and the state is still reeling from the effects.
