Life may seem beautiful and colourful at times, yet is not always fair. Few people in this world are fortunate to live the life of their dreams, while the rest merely struggle to make both ends meet. For some, life may begin in the grandeur of majestic palace, for others, it may emerge out of miserable slum. For instance, Muhammad bin Salman when born, inherited the crown of the Kingdom of Saudi Arabia. On the other hand, another child of his age, born in a distant land of Africa, has nothing to inherit, except hunger and poverty. Therefore, life may be blissful somewhere, but it is often dark and gloomy elsewhere.
