Title:

"Nizar Hassan's documentaries on Palestine"

Nizar Hassan, a Palestinian film-maker produced two important documentaries "Independence" and "My Grandfather's path" on Palestine. In "Independence" Nizar Hassan criticized the Israeli's concept of 'Independence' as according to him Israel regarded the acts of snatching other people's land as independence. On the other hand, in his new documentary "My Grandfather's path" he shed light on the fact that select your enemy carefully as you will eventually become like them. The same will happen with Palestinians. Seeing the violence and use of armed forces at the hand of Israel will compell them to resort to violence. Through this masterpiece Nizar Hassan wants to prevent Palestinians

from falling into that trap.
