## Digital Empathy

The digital empathy is the new social dilemma for youth. The reason is the youth caught in a cage of social media. In fact, Digital empathy has changed the social structure because of youth dependency on it. Moreover, activism on social media has negative impacted the social structure, in form of many losses in society. For instance, the recent university student Sarah was in a relationship with someone, who promised ~~her~~ with her for marriage. Over a time, he blackmailed her for money at the end he went abroad and she lost her money. (Muhammad ali, Digital empathy, July 13, 2023). In short, digital empathy has negative impacts on social structure which is faced by the youth over dependency on it.

## ~~Tehrik~~ Tehrik-i-Taliban Pakistan

The attacks of Tehrik-i-Taliban are increasing in Pakistan. Since, a decade Pakistan has faced many waves of terrorism. Recently, a gruesome attack in Peshawar as a result of which many have martyred down.

In fact, they have strong their roots in tribal areas of <sup>n</sup> Kyber Pakhtunkhwa after

the Taliban came into power. Notably, after revival of Taliban approximately 55%

terrorism has been recorded. For instance, at least 59 ~~person~~ people have been killed

by a suicide bombing that apparently targeted policemen praying in a mosque

in Peshawar, Pakistan. (Cassie Davies,

Pakistan mosque blast: Police targeted in suicide attacks that killed 59 people, 30 Jan, 2023).

In short, the attacks have been witnessed

in Pakistan by the Tehrik-i-Taliban after revival of Afghan Taliban.
