Juvenile Delinquency

Day: _____

Juvenile delinquency refers to the action or conduct of a child which breaks the social code of a society in which he is living.

The term Juvenile means a child who has not attained the age of adulthood whereas the term delinquency is derived from latin word "delinquere" which means negligence. There are

different causes of juvenile delinquency which includes family ^{issues} problems, economic problems and or

Only Two problems have been discussed later as well

concerns individual problems and accompanied by other problems. Family problems and economic problems play a major role in delinquent behaviour of a child. Families having low income face many social problems Adequate and minimum and stable family

income is Juvenile delinquency is highly correlated with low income and other social problems resulting from poverty (The economic factor in juvenile delinquency, Ernest). A poor community or society goes hand in hand with juvenile delinquency.
