

Q How China's Iran partnership will benefit China and Iran? Will it be favourable to Pakistan?

Answer Introduction

"China is going to be a world leader."

(Fitch, S.P, Moody's)

China's Iran Strategic deal

is going to reshape the world.

In fact, China will get profit of opportunity and Iran will also get profit. However, Pakistan will have favourable opportunity to profit from this deal. Hence,

China's Iran partnership is favourable for the regional stability.

2- China Iran Strategic Partnership: an Overview

"China is reshaping the new world order."

(Ayman Hussain)

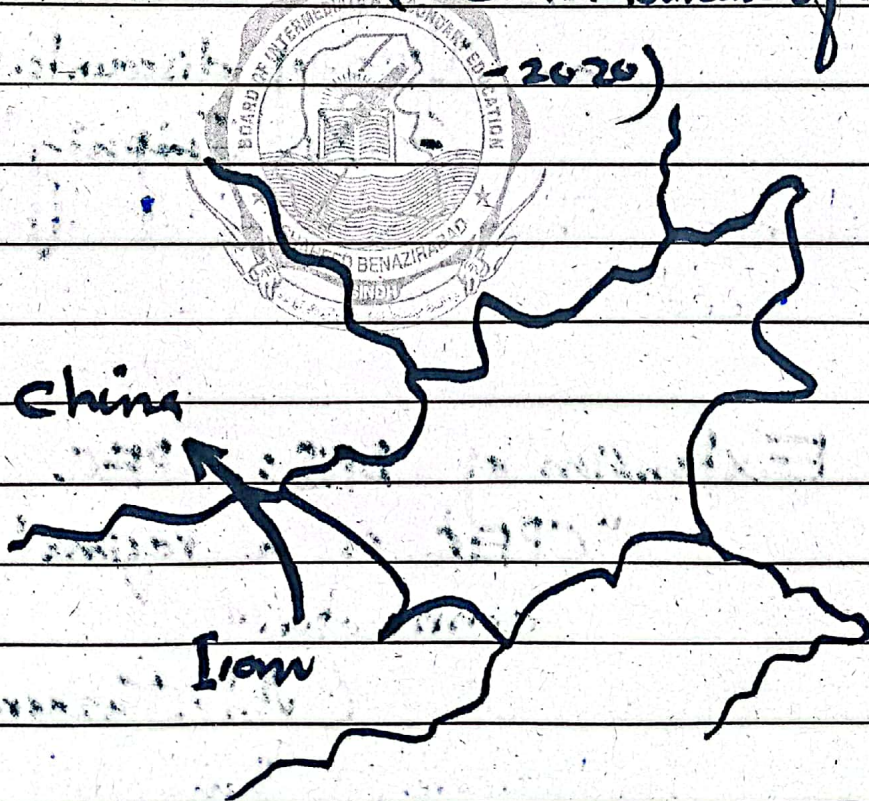

China's Iran partnership leads to interdependency of economic and security concerns of both countries.

In fact, China-Iran partnership is becoming a facilitator for the region.

"About \$10 to 20 billion trade is recorded between China and Iran since 2016."

(- China Bureau of Statistics - 2020)

Trade Zone

Therefore, China-Iran partnership is bilateral favourable.

3. How China will get profit from Strategic partnership.

Following are advantages

a) Access to maximum energy need

China's needs more energy for its industries. In fact, China will get cheap energy.

"Iran will provide energy to China

on 12% of discounts."

(- Xi Jinping)

Hence, China will fulfill its energy need.

b) Extension of BRI: CPEC

"CPEC is a regional connector"

(AI Jazeera, 2020)

Moreover, China will extend its CPEC project. CPEC infrastructure development will be

facilitated in Iran.

"China is going to invest \$100 billion on CPEC in Iran."

(China Bureau Statistics, 2022)

Thus, China will extend its project.

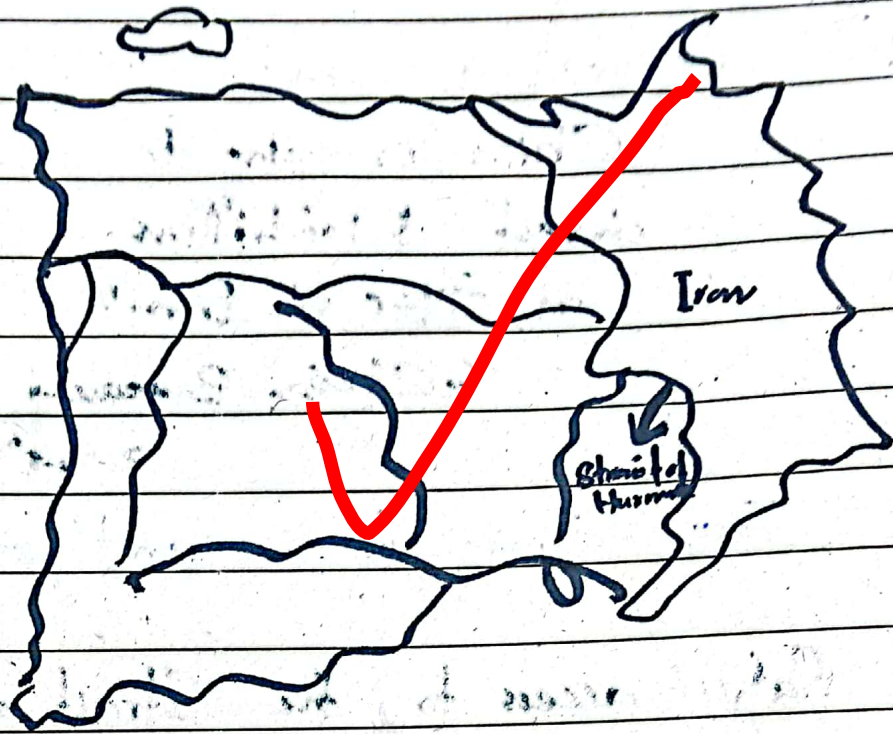

c) Safe access to the Strait of Hormuz

Further, China needs safe route to reach in global markets. In fact, Iran will provide safe route to China.

China has deployed more than 81000 troops in Iran for safety of route."

(BBC, Military intervention, 2022)

Therefore, China will get safe route to do trade in international markets.

- Strait of Hormuz

4- What are profits for Iran?
 following are profits:

a) **Economic Revival: Economic stability**

Iran will get its economy revived. In fact, Iran's economy was depressed due to the sanction of the West.

"Iran will earn \$100 billion by bilateral trade."

(Al-Jazeera 2010)

Therefore, Iran will get economic stability.

b) Infrastructure development: CPEC blessings

Moreover, Iran will develop its region via CPEC. In fact, Iran will get faster route of trade. According to president of Iran, Ibrahim

"CPEC will turn stability of Iran."

Therefore, Iran will get its region developed.

c) Technological Assessment: 5G networks and cyber security

Further, Iran's cyber security will be strong by 5G networking. In fact, China will help Iran in technological assessment.

Add 4 4 benefits at least

"Iran's cyber security will guard bilateral relations."

(- Xi - Jinping)
Thus, Iran will get strong cyber network.

5- What are possible opportunities for Pakistan?

Following are possible opportunities.

1) Transit block between China and Iran: revenue generation

Pakistan will provide transit route to China and Iran. In fact, Pakistan will get opportunity to collect revenue generation.

"Eventually Pakistan can earn more than

\$ 200 billion from transit pathway."

(- Pakistan Bureau of Statistics)

Therefore, Pakistan will provide transit route.

b) CPEC extension: access to global markets

Moreover, Pakistan will trade in global markets via CPEC. CPEC will provide channel to Pakistan to trade globally.

"Pakistan will trade in Turkey, Europe, ASEAN markets via CPEC extension in Iran."

(- Economic Survey)

Hence, Pakistan will get access to global markets.

c) Cordial ties development between Iran and Pakistan

Further, Pakistan and Iran relations will get peace.

In fact, due to border rebellion, both are in conflict.

"China will provide a helping hand to Iran and Pakistan relations."

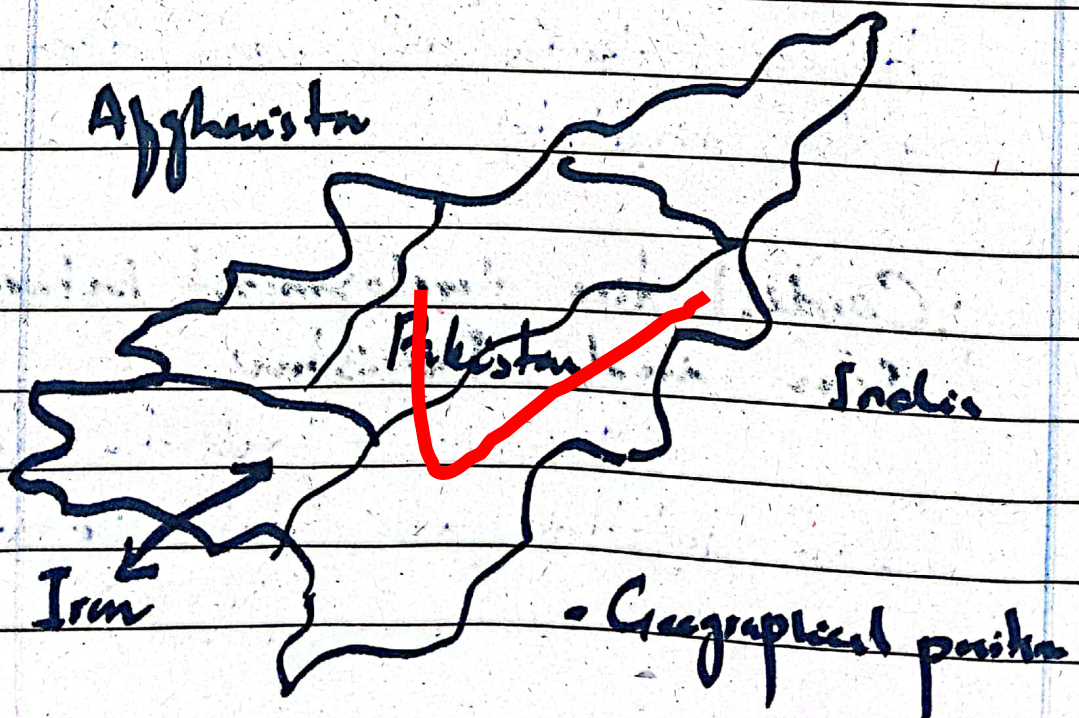

(- Think tankers, 2020)

Moreover,

"Pak-Iran has signed security and economic cooperation paper."

(← Economic Survey)

Hence, China-Iran Partnership will lead to cordiality between Iran and Pakistan.

6- Criticd Analysis

"China is leading to region."

(- Fitch . S.P. Moody's)

China is leading to region. However, US-Sino rivalry is supported by India in the region. Moreover, Pakistan is an important ally for both and is a challenge for it. Moreover, it is favourable for China, Iran, Pakistan and for the whole region.

7- Conclusion

"China will soon be the
fast largest economy
of the world."

(- Fitch . S.P. Moody's)

China is a global leader.

In fact, China's firm deal has reshaped the region. Moreover, it is not only bilateral favourable, but it also has positive impacts on Pakistan. Therefore,

China Iran Partnership is a cordial deal.
