

3. Why enhancing intellectual ability is neglected in Pakistan's education system

d. ~~No appreciation on creativity~~ is not

The lack of Appreciation of appreciated creative work diminishes ~~non-intellectual~~ abilities.

~~The~~ It no appreciation has a negative impact on students' mentality which leads to demotivation. Definitely, SP: Spelling mistake there are some societal bias towards 'Practical' subjects such as Science and technology, engineering, and mathematics that are perceived as more practical and linked to the future and career prospects. For instance, Sir Ken Robinson discusses how educational system tend to SP prioritize academic subjects over creative ones. He argues that this bias ~~subjects~~ undermines creative abilities and limits ~~their~~ potential of learners for innovation.

(Sir Ken Robinson, "Out of our minds", March, 2010). In short, lack of appreciation of students, on creative work is making the students non-intellectual in Pakistan's education system.

the para has not sufficiently been related to Pakistan

3. Why enhancing intellectual ability is neglected in Pakistan's education system
 c. Absence of information technology

The ~~absence~~ ^{use of} information technology is ~~absent~~ ^{not prevalent} in Pakistan's education system. ~~This ignorance~~ ^{IT development} of information technology is the root cause which leads to non-intellectual ability. In fact, the digital illiterate teachers are responsible because they are not updating themselves. They are all aware that computer science classes do not provide students with the degree of ability required by today's corporate sector. According to Pakistan Education Statistics, the digital and traditional literacy rate is just 50% percent. (Pakistan Education statistics, report, 2019-2020). In short, the ~~absence~~ ^{in education system} of information technology is the root cause of not making the students a good critical thinker.

not explained what role IT plays in enhancing intellectual ability.

as suggested in previous assignment, stay focused on topic. understand it clearly first and then attempt it. Probably you are working under too much pressure, take a deep breath. do physical exercise daily and pray five times a day. study in early hours of morning, right after fair. that will boost your mental composure. Do not forget to take productive breaks from study. good wishes.

Six, need your humble suggestion for improvement

3. Why enhancing intellectual ability is neglected in Pakistan's education system

e. Strict behaviours of ^{the} teachers

The strict behaviour of the teachers ~~leads~~ ^{helps} ~~to create~~ ^{enhancing} non-intellectual abilities in the students. ~~does not~~

The strict teachers cannot create a critical mind because he sets the harsh image in the student's brain. In fact, the children drop out from school is the outcome of the harsh attitude from the teachers. redundant The ^{survey} ~~analyses~~ of out school

result? ~~children~~ conducted by ministry came up with two separate reports, one on slums of Islamabad and the other on rural areas of Islamabad. Moreover, it's the key factor

behind the high proportion of the child labours. (Ministry of Human Rights, Harsh attitude of teachers key dropout factor, report, March 20, 2018). In short, the strict behaviour of the teachers have ^{relate} ~~negative~~ impacts on student's mind. to topic clearly
