in public

Grammatical  
Mistakes

b) Conclusion

Lead a research on topic  
sample based articles

# Essay

## Introduction:

abstraction

"One day the Prophet (PBUH) passed by Saad ibn Abi Waqqas (RA) while he was performing wudu. The Prophet (PBUH) asked Saad "What is this wastage?" Saad replied: "Is there is a wastage in wudu also,"

The Prophet (PBUH) said: "Yes even if you are at a following river."

This hadith gives the lesson, that there is no neglect for anything which is ~~is~~ comes under the umbrella of Nature. But at present, lack of proper management system is revolving around everywhere in the world. Every Nation pursues their National interest instead of focus on Climate Crisis. Even we can say their is a <sup>major</sup> role of failure of National and International organizations due to having no enough resource and lack of knowledge in industrial practice. Impact of

Reference?

This is Cause Challenge, of food Security, In worldwide disasters, are happening in every region, which Cause Global warming, floods in many regions, Melting of glaciers in cold areas, Heatwaves in the cold region and loss of Biodiversity. due to ~~the~~ neglect of Climate Crisis these all are happening Contemporary in world wide.

In Contemporary Period, Climate Crisis is becoming worse Condition for every nation, but still this issue is neglected. Lack of Implementation in Management system is a major Reason for neglect of Climate Crisis. Proper Management systems are required to avoid the neglect of Climate Crisis.

2: Why Climate Crisis are remain the most neglected Cause

Maintenance of Climate is one

of the most essential duty of every Nation. But at present, lack of attention towards the climate ~~has~~ become ~~is~~ one of the worse situation for every nation, though, Nations neglect this phenomenon instead of give focus to its urgency. Climate Crisis is become one of the Reasons of disasters in world wide. More than "2 Million" people loss their live due to extreme weather and climate related events in the last 5 decades, withover 90% of reported deaths worldwide occuring in development countries. Currently, The world ~~has~~ <sup>has an</sup> option to work on atmosphere. Basicall~~y~~ it ~~is~~ <sup>should be</sup> nature based option "Planting of tree" and raising of "forests", <sup>and</sup> enhance the practice of Industries to avoid the neglect of climate crisis.
