

POVERTY IN PAKISTAN

Maahaf

Keep writing.

not mentioned anywhere in para, the para relates more to poor economy of Pak than the topic

Pakistan is a poor country. It's economy is dependent on the loan from IMF; it has borrowed 23 loans till now. Although it has a huge youth bulge, but there are no recent interventions. While a state is depending on external aid, it will become a debenture? day by day due to external debt, and will default as a result of burden of loan.
