"Online Education has Given More Opportunities than Challenges"

Outline:

1- Introduction:

i- Defining the concept of online learning.

ii- Growing popularity of Online education.

iii- Thesis statement: Online education has significantly expanded access to quality education, offered flexible learning options and provided a diverse range of courses and programs outweighing the challenges. It has some challenges, like, potential distraction and lack of face-to-face interaction.

2- Opportunities provided by online education:-

i- Access to education

a) overcoming geographical limitations

Margin annotations (in red):

Mashal

Good content but add a couple more opportunities to convincingly outweigh challenges

write challenges in the beginning as they are less in numbers, then counter them by writing opportunities, that is also your main argument

Thesis st position

lacks Transitions

Increased

b) Reaching diverse student population
