Title: How to deal with children. Dealing with Children

The author is not happy with the modern educational life. From the author's perspective this approach of not interfering in children's negative consequences. One has to deal with children in the same way as one has to deal with ones pet. This kind of for dealing would remove the feeling of resentment and reluctance from child's life. A good teacher is one who feels pleasure in the presence of his students, without any kind of interfere in children's freedom. Without any kind of damage. According to the author, a teacher can whole profession. Two hours a day are enough to interact with children. Discipline is also very important in child's life. If discipline is avoided, teacher a feeling of irritation will arise in teacher. However, no rules can arouse in of affection and ~~excess~~ love.

$\frac{351}{3} = 120$ Aproximately.

Idea is generally ok.

A bit long. Do not repeat "author" multiple times. Giving credit just once is enough. Do not include examples in precis. Just give their gist. Capitalization mistake also found.
