

Masha

Batch: OB-53

Name: Rani Bibi

ACADEMIC PARAGRAPH STRUCTURE

(Sub-heading: Negative effect of social media on youth.)

Topic Sentence	The use of social media can be addictive.
Explanatory or Reasoning sentence	The reason is that social media has the potential to stimulate rewarding areas of brain.
Supporting Point (1)	Youngsters spend a great amount of time scrolling through social media, and they feel a constant urge to <u>log</u> into <u>open</u> it again and again.
Example (1)	Whenever an individual is exposed to content on different social media forums, it activates ventral tegmental area, rewarding system of dopamine. ^{The} secretion of dopamine produces pleasurable effects and in order to get those pleasurable effects again, individual tends to reopen it.
SP 2 (optional)	
Ex 2 (to be written if SP2 is given)	
Concluding Sentence	This shows that social media does not only impact daily routine or physical health but also <u>affects</u> the brain chemistry.
