Nuclear ~~is~~ challenge to world peace during the 21st Century

Nuclear Weapons and their means of delivery is a huge challenge for world peace security and stability during the 21st century.

From last few decades technological development in nuclear weapons specially in developing countries is a worst and uncontrollable challenge for the world peace. The progress between India and Pakistan for the race of technological advancement in ~~nuclear~~ nuclear weapons and missile technology is becoming very horrible situation in overpopulated south Asian region. "India should not forget that Pakistan has an atom bomb. Our nuclear status is not meant to remain silent" Shazia Marri, Pakistan Federal minister, December 2022.

It concluded that nuclear weapons is a terrible challenge of 21st century of world peace.
