

# Merits of Computer

Computer is a useful device. It is used for office works, government and private officials use it, for their daily works. As they type their official letters and applications. Furthermore they store and save their records and dates in it. Computer is also beneficial for teaching and learning process these days. It is an important source of distance learning, through zoom app, skype and Google team. Students get their online classes using above mentioned apps in their computers. In addition, student can save thousands of soft books, videos and other ~~mat~~ learning materials. Besides, it has connected the wide spread world in the shape of a small village. i.e. global village. The information of thousands miles away could reach in a second. The people of east of ~~we~~ are well aware about the situation of west. They can connect with one

another in seconds. For instance the people  
of Pakistan are aware of Ukraine and  
Russia war on daily bases. In short,  
computer has brought a revolution in  
every field of life, and benefited  
~~the~~ human being a lot the human being

## Advantages of Trees

Trees are very useful substances of the word. It ~~cleans~~ cleans the atmosphere, ~~because~~ trees are useful to eliminate the amount of carbon dioxide as they inhale it and exhale oxygen. They stop the wind power. In addition, trees are also beneficial for living organisms, animals and human beings. A lot of micro organisms get their food from its roots. It feeds animals, they eat the leaves and seeds of tree. The human being also takes its advantages for, they eat the fruits, like, apples, mangoes, dates etc. Further resting under trees are quite pleasant and freshes minds. <sup>So</sup> Overall, there are a lot of benefits of trees in word.
