Civilizations-

Way Effecting on Different

War has vitiated every civilization because it spreads gradually until it secured lives of people. No one escaped from it, when it becomes manifest. Initially, during civilizations growth, the cost of wars ^{is} circulating due to get benefit from wealth and power. War was not treat till war-making society increases economic ability to exploit physical nature and organization of man power. As this happens, it destroys large ~~at~~ shares of resources. Moreover, it spreads as cancer in the society for getting power. In the past, appearing the worse relation between war and civilization, effective efforts took to have saved the society. Salvation can be done by working of the conscience of human being either who is private or citizen of state. The alternative peace strategy by govt. to combine jointly aggression.
