

## Food Insecurity

Furthermore, Pakistan is facing a severe food crises. Climate change has been a detrimental issue for Pakistan as we have seen its impacts in recent floods and heavy rains. These natural disasters have been vulnerable for the food security in Pakistan, because now Pakistan is considered a food insecure country globally. According to Global Hunger Index 2022, Pakistan is at the 99th number out of 121 countries. So, now a days food security has become a major problem for Pakistan.
