Question No. 7.

Every era brings with itself many such matters that no one likes but has to accept. Sometimes, nature tests us by bringing something before us that we do not like or have nothing to do with it. Still we have to make it part of our lives. The same is going on even today. Each century has been bringing with it such changes that are new as compared to previous centuries. The development of natural science and arts has given a man a lot, which can be termed as a waste of scientific and economic resources. For instance, nature gives us fruit and at the same time, binds us to dispose off its peels properly. However, if it is not done properly then the environmental degradation becomes worsens.
