## Crunch Paragraph

تقریباً: Crumch para  
یہ Outlines کا طاق ہے

A healthy human capital is a backbone of a country. In fact, a good and strong human capital is a basic pillar of socio-economic prosperity. The world's developed and advanced countries are powerful because of investing in human development. For instance, China, the world's 2nd largest economy, has strong focus on human development that is also China's foreign policy narrative. As per statistics, China's investment in human development is the 2nd largest in the world. (Economic Survey, 2022). Therefore, above data is a witness of that human capital is a backbone of a country.
