Precis:-

Progress in life depends a good deal on crossing one threshold after another. Sometime ago, a man watched his little nephew try to write his name. It was hard work, very hard work. The little boy had arrived at the threshold with great effort. Today he writes his name with comparative ease. No new threshold confronts him.

This is the way with all of us. As soon as we cross one threshold and conquer one difficulty, a new difficulty appears. Some people make the mistake of steering clear of thresholds. Anything that requires genuine thinking & use of energy they avoid. They prefer to stay in rut where thresholds are not met. Probably they have been at their jobs a number of years but now things are easy for them. They make no effort to seek out new obstacles to overcome. Real progress stops under such circumstances.

Some middle aged & elderly people greatly enrich their lives by continuing to cross new thresholds. One man went into an entirely new business when he was past middle life & made success of it. Morgan did not start to write novels until he was past sixty.

Psychologists have discovered that man can continue to learn throughout life. It is undoubtedly better to try & fail, than not to try.

at all. That then one can be placed in the category of Swiss mountaineer of whom it was said, "He died climbing"

When a new difficulty rises to obstruct your path do not complain. Accept the challenges. Determine to cross this threshold as you have crossed numerous other thresholds in your life. In the words of the poet, do not rest but strive to pass "from dream to greater dream".

Title :- "Hardwork is the key to success"

Confronting to new difficulties everyday and overcome them is the key to success of life. Life is a struggle of continuous hardwork. But a group of people who put no effort to do anything productive, cannot progress. And some are very welcoming to new startups, no matter at what age. Trial and failure, facing the hurdles coming in life is

better than do nothing. As One should be so much firm in achieving his dreams and cross every obstacle. As "striving is better than rest" means fight for what you want no matter, how much difficulties come on the way.

ہر دور اپنے ساتھ بہت سے اسے معاملات بھی ہے کہ
 آپ اسے جو کچھ بھی سہجہ نہیں ہوتی مگر انہیں قبول
 کرنا پڑے گا۔ بعض اوقات اساطیر ہوتی ہیں
 کہ قدرت میں شامل نہیں انصاف کی خاطر اس بات
 کو ہمارے سامنے رکھتی ہے جو ہمارے مطلب کا
 نہیں ہوتا۔ بلکہ اس سے ہمارا کوئی تعلق ہی نہیں
 ہوتا مگر یہ بھی ہم اسے زندگی کا حصہ بنا کر
 ہونے چاہئے۔ آج بھی اسانی دل رہا ہے
 لیکن آج کے ساتھ اسے نہیں ملتا (یہ سچ ہے)
 جو گزشتہ صدیوں کے مقابلے میں بالکل نئی تھیں
 فطری علوم و فنون کی ترقی نے انسان کو اس بات
 کو دیکھا ہے جسے علمی و معاشی عمل کا کام
 دیا جا سکتا ہے۔ قدرت ہمیں بھی دے رہی

 پابندی بھی کرنی ہے کہ اس کے حلقوں کو دھندل

Every era brings a lot of matters which are not fixed by anyone but must be accepted. Sometimes, it may happen that nature, maybe, for the sake of testing us, put many things in front of us which are not for us. In fact, it does not belong to us, but, still, it is a part of life. Even today, going the same. Every century have been bringing such changes which were completely different than previous centuries. Development in natural art and science gives man so much things which could be considered as the garbage of educational and economical process. Nature gives us fruits and along with that it bounds us to dispose off their peelings properly. If we do not do so, there it will increase in environmental causes be pollution.
