## Conclusion

Date \_\_\_\_\_

Neglect of enhancing intellectual ability in our education system  
Sub-heading: choice of a wrong career path

Topic Sentence: Choice of a wrong career path is one of the reasons of neglecting intellectual ability in our education system.

Explanatory / Reasoning : Mostly, students after choosing their fields realize that this is not what they suppose to do in their life and that this is not their passion.

Supporting point 1 : Hence, when they lost interest in whatever subject they opt for in their graduation, they feel distracted and do not employ their intellectual ability in that subject.

Example 1

According to studies, 80% most of engineers after choosing wrong fields, switch to soft fields like H.R, business communication etc.

Concluding:

Hence, choice of a wrong career path can ~~des~~ create hurdles for a student to use his intellect properly.
