

People have become ~~more~~ ^{overly} dependent on Technology.

1) Introduction:

Thesis statement:-

1) Crunch paragraph

2) It is the need of the hour to rely on technology, not ^{over} dependency:

3) Technology reduces the possibility of natural disasters.

b- Numbers of diseases goes on decreasing.

c- Security dilemma resolves by having nuclear technology.

d- IT facilitates humans to live i.e. A.C, Fan, heaters etc.

e- The effect of climatic changings reduces through technical devices

4) Presence of Technology causes problems:

a) Natural disasters are happening in the ^{age} presence of Technology.

b) Treatment has become expensive for poor.

c) Massive destruction is caused by nuclear technology

d) It causes the laziness in human.

e) Technology is the biggest source of dangerous climate change.

5) Technology enhances the efficiency of work.

3a) Technology overcomes the natural disasters.

b) Govt of states ^{should} provide relation to poor in treatment

c) Rational use of nuclear technology makes states free from foreign invasion.

d) It develops the mental ability and facilitates humans in working.

e) Technology ^{is} effectively works then can overcome every sort of ^{bad} environmental changing.

6) Conclusion.
