Conclusion

Introduction

Meaning purposive education's benefits the entire world and everyone in it. Root learning and lack of inadequate teaching staff hinders ^{the access} is an ~~obstacle~~ to achieve education. However, trained teachers and an updated curriculum can solve the problem. "The function of education is to teach one to think intensively and to think critically. Intelligence plus character - that is the goal of true education." (Martin Luther King jr). This means that the main purpose of education is to make an individual able to use the maximum capacity of its brain and to think critically. Meaning purposive education reaps benefits

for an individual, it gives purpose and direction in life, develops intellectual level and enhances critical thinking. It also develops self esteem of an individual. Furthermore, it also helps in excelling in practical life, such as helps in career growth. Helps in comprehending and solving problems easily. Moreover, meaning purposive education helps an individual to take correct practical decisions in life. In addition to this, education improves economy and the well being of a society. In an educated society there are less crimes and conflicts. Employment increases as more people get educated, with employment innovations increases and an economy can prosper as more people are educated with quality education.
